The screenshot shows the Microsoft PowerApps studio interface. On the left, there's a 'Tree view' sidebar listing various screens and components like 'HomeScreen', 'FleetChecksGallery', and 'ArgicExample'. In the center, a preview window shows a mobile-style interface with a car image at the top and a dark overlay below containing three items with placeholder text ('Lore ipsum 1', 'Lore ipsum 2', 'Lore ipsum 3') and images. To the right, a 'Data' panel is open for 'Image9', showing fields for 'Image9' (set to 'SampleImage'), 'Subtitle1' (set to 'SampleText'), and 'Title1' (set to 'SampleHeading'). Below this are sections for 'List' (with options like 'Blank', 'Title', 'Title and subtitle', 'Title, subtitle, and body', 'Image and title', and 'Image, title, and subtitle') and 'Display mode' (set to 'Edit'). The top navigation bar shows tabs for 'File', 'Home', 'Insert', 'View', 'Action', and various control icons. The URL in the address bar is https://us.create.powerapps.com/studio/#.

AUTOGLASS

The screenshot shows the Microsoft PowerApps studio interface. The top navigation bar includes tabs for Microsoft Office Home, PowerApps, WIP - Fleet Check v, Edit your flow | Microsoft Fl, BelronFunctions - CheckWri, and a plus sign. The URL https://us.create.powerapps.com/studio/# is displayed in the address bar. The main workspace is titled 'CustomGallerySample'. On the left, the 'Tree view' pane shows a hierarchical list of screens and components, including 'HomeScreen', 'FleetChecksGallery', 'ListScreen', 'DetailScreen', 'EndScreen', 'ArgicScreen', 'PreviewScreen', 'ArgicBuildOut', and 'ArgicExample'. The 'ArgicExample' screen is currently selected, showing a mobile application interface with a header 'AUTOGLASS', a car image, and a grid of three items. The 'Data' pane on the right displays a 'GALLERY' named 'Image10' with 'SampleImage' selected. The 'Properties' tab is active, showing settings for the gallery, such as 'Select a data source' (set to 'Fleet Checks'), 'Fields' (set to 'JeffH@PowerAppsDemos3.onmicrosoft.com Common Data Service'), and various layout and visibility options. The bottom of the screen shows the mobile application's UI with a car image and a grid of three items.

The screenshot shows the Microsoft PowerApps studio interface. A central preview window displays a mobile application screen titled "AUTOGLASS". The screen features a camera view of a white car's front windshield at the top, followed by a grid of six smaller images representing different glass panels. Below the grid, there are two text fields: "Argic No." and "Available?". To the left of the preview is a "Tree view" pane showing the project structure, including screens like "ListScreen", "DetailScreen", and "ArgicExample", and components like "Image10" and "Label2_1". On the right side, the "Properties" pane is open for the selected component "Image10", displaying various styling options such as image source, position, size, and color.

The screenshot shows the Microsoft PowerApps studio interface. The main canvas displays a mobile application screen. At the top, there's a header with the 'AUTOGGLASS' logo. Below it is a white car's rear window with a red square highlight on the glass. Underneath the car is a grid of six car parts (three rows of two). At the bottom of the screen is a black panel with the text 'Argic No.' and 'Available?'. On the left side, a 'Tree view' pane shows a hierarchical list of components used in the app, with 'PenInput2' currently selected. The top navigation bar includes tabs for File, Home, Insert, View, Action, and various tool icons. The status bar at the bottom shows the URL 'https://us.create.powerapps.com/studio/#', the environment 'Belron (orgb841e78f)', and a zoom level of 60%.

ArgicExample PenInput2

The screenshot shows a mobile application interface within the Microsoft PowerApps studio. The app's header features the "AUTOGGLASS" logo. The main screen displays a white car from a rear three-quarter perspective. A red square highlights a specific area on the car's rear window. Below the car, there is a grid of six smaller car parts arranged in two rows of three. At the bottom of the screen is a dark panel containing two text fields: "Argic No." and "Available?". The PowerApps studio interface includes a "Tree view" pane on the left listing various components like "BaseElements", "ArgicExample", and "PenInput2". On the right, the "PenInput2" component is selected, showing its properties: Mode (Draw), Show controls (On), Display mode (Edit), Font size (2), Visible (On), Position (0, 73), Size (634, 476), Color (A), Border (2), and Tooltip (No value). The status bar at the bottom indicates a zoom level of 60%.

ArgicExample PenInput2

The screenshot shows a Microsoft PowerApps studio interface. The main workspace displays a mobile application screen. At the top, there is a header with the "AUTOGLOSS" logo. Below the header, a white car's rear window is shown with a red square highlighting a specific area. The car is positioned above a 3x3 grid of six smaller images of car windows, likely representing different glass options. At the bottom of the screen, there are two text input fields: "Argic No." and "Available?". To the left of the workspace is a "Tree view" pane showing a hierarchical list of components used in the app, such as "MapIcon", "BottomRectangle", "BaseElements", etc. On the right side, there is a "Properties" pane for the currently selected component, "PenInput2". The properties pane includes settings for mode (Draw), show controls (On), display mode (Edit), font size (2), visibility (Visible), position (0, 73), size (634, 476), color (A), border (2), and tooltip (No value). The URL in the browser bar is https://us.create.powerapps.com/studio/#.
